

July 2008

AIZYC TECHNOLOGY PRIVATE LIMITED
8-2-120/86/9/4, 2ND FLOOR
R.A. TOWERS, ROAD No. 2, BANJARA HILLS
HYDERABAD - 500034, AP, INDIA

To Our Customers and Our Partners:

Aizyc Technology has reviewed the EU WEEE and RoHS Directives and amendments. Aizyc Technology also discussed and reviewed internally on the board and has agreed to take all measures to comply with the EU RoHS Directives and amendments.

This letter explains how our services fit into the scope of these Directives.

Aizyc Technology is a services company offering its services to the Electronic Industry. Though we do not manufacture any products we do help customers in prototyping their product ideas.

We have taken all measures to review our partners for compliance. In such cases where our customers request specifically for non RoHS products for cutting costs or other varied reasons we will not oblige the business.

Our Environmental Policy, which is also posted on www.aizyc.com, is as follows:

"Aizyc Technology recognizes that the protection of the earth's environment is one of the most important issues for all mankind.

We are committed to protecting the environment for our customers, partners, employees, friends and neighbors in the workplace and the community.

We are therefore committed to complying with environmental laws and regulations that apply to our business and products worldwide."

If you have questions about RoHS compliance for any prototype please contact your local sales representative.

This letter is intended only to report to that Aizyc Technology understands the impact of the WEEE and RoHS directives on Aizyc Technology's sale of its various services. It is not intended to serve as legal advice and should not be relied upon by a purchaser in evaluating its own responsibilities under the directives. Any purchaser is encouraged to seek their own independent legal advice.
